

# Pediatric MRI

## Sedated and Non-Sedated 3T MRI Imaging

### *Benefits of Pediatric MRI at Big Sky:*

- 3T MRI only, providing the highest quality MRI imaging
- Comfortable outpatient environment
- IV sedation available, which is safer and more cost effective than general anesthesia
- Success with non-sedated pediatric patients as well
- Cost savings compared to hospital-based imaging
- Eastern Radiological Associates read MRIs performed at Big Sky (pediatric radiologist on staff)

*Same-day MRI and CT without the high hospital costs!*
